

A practitioners guide to Transgender Issues

Or... Why is Caitlyn Jenner
so confused?

A Southern African Sexual
Association CPD Event

TUESDAY 7RD JUNE 2016

Christiaan Barnard Memorial
Hospital Conference Room

19:30

Transgender issues are increasingly prominent in the media and the culture at large. As a result, there is a surge in demand for access to Transgender health care, and a necessity for practitioners to understand the challenges facing this population.

Dr. Kevin Adams is a Plastic Surgeon with the department of Plastic & Reconstructive Surgery at Groote Schuur and Red Cross Hospital. He works at one of the two public sector transgender clinics in South Africa at GSH. He will discuss clinical procedures, challenges and experiences from the world of transgendered reconstructive surgery.
